

# Operation 6005

ritētemp<sup>®</sup>

This unit is a "heating only" unit and cannot control a cooling system.

**Temperature Dial**

**Low Battery indicator**

Statement of use: The 6005 can be used with most 24 volt gas, oil or electric heating and air conditioning systems, or gas millivolt heating systems. **It cannot be used with 120 volt heating systems or heat pumps.**

## Operation

- Turn the Temperature dial to select the desired temperature.
- Higher temperature - counter clockwise (red)
  - Lower temperature - clockwise (blue)

**NOTE:** LED blinks when batteries are low.  
**Caution:** Heating system will stop when batteries die.
